

Supporting charities

*Sports day marathon was "Race for life"- we raised £320 for cancer research.

*The staff raised over £1000 for Breast Cancer Now in Jan 2021 by running "10K anyway".

Supporting church

This week is Christian Aid week and St George's church has been collecting for this important charity which helps support communities around the world to thrive. If you wish to help, please drop any donations off with Sharon in the office. It's a great way of celebrating church and school working together to help those less fortunate than ourselves.

We supported church in their fundraising for Christian Aid week.

Supporting children to make a stand

*Some children in Y5 were so upset to hear of the plight of the animals in the rainforest (after their Geography lesson)

they set up a petition for everyone to sign to stop the use of palm oil eg Nutella.

* Class 1 & 2 decided after their lesson on "looking after our world" that they would stop using plastic straws for their milk.

Giving children aspirations to help and lead

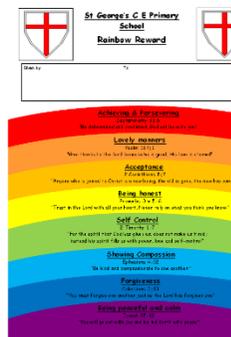

The 2 Bible group representatives from Ethos came to find the RE lead to ask if THEY could lead an EXTRA

Bible group session this week on the Christmas story. They have planned the session as a playscript and given all the children parts, then are planning to colour a 3D nativity scene with the children. Wonderful young leadership in the making!

Strand 3 Character development Examples of excellence

Supporting moral development

Our reward system is linked to values. Ethos group plays an important part of acting as role models to support others.

Buddy groups help in same way.

School community engaged in social action

We're going green with our green greenhouse! We need around 2400 2 litre plastic bottles, cleaned, de-labelled and thrown in one of the bins at the entrance of St George's school chorley. We'd like to build our greenhouse over half term... We have a rubbish Headteacher who's left it far too late. Can you help us please. If you have any 2 litre clean, delabelled plastic bottles please sen them to St George's School, Carr Lane. PR7 3JU. Cheers. Andy

Many parents and children have been involved with our greenhouse project this year in and out of lockdown. Saving plastic bottles, planting trees and

growing our own fruit and vegetables.

Surrounded by inspiration on how to behave

Class 9 looked at the artist Roy

Lichtenstein in Arts week and decided to make Christian value artwork inspired by his work.

Inspiring others to want to make a difference

After seeing how Mary Jones made a difference the Y2 children were asked how they could make a difference.
