

Home Learning Menu – Class 1 and 2

Maths

(Core activity)

- Practice practical addition (work with numbers your child is comfortable with), perhaps tell a number story i.e. If Mrs Mackenzie has 3 sweets and Miss Glover has 5, how many are there altogether? Challenge 'who has more sweets?'

Reading

(Core activity)

- Read your phonics book or home reader with an adult every day - stop before the end to make a prediction.

Writing

(Core activity)

- Write a list of things you would take to space with you. What do you think you'll need?

R.E.

(Core activity)

Our RE unit this term is 'Stories Jesus Heard'.

- Do you like listening to stories?
- What are your favourite stories?
- Where and when do you hear stories?
- Who tells you stories?

Out of this world!

Understanding the world

(Topic activity)

- Have a look at the planets in our solar system. You could learn facts about your favourite one or explore them all!

Communication and Language

(Topic activity)

- Play *10 clues*. This activity works well when the children can physically see the item you are describing. The aim of the game is to guess the object in the least amount of clues- the clues will get progressively easier. For example, the first 3 clues for a pencil may be: You can hold me in your hand, I can be sharp, and artists use me.

Try your best to:

- Complete all the core activities above (*Maths, Reading, Writing and R.E.*).
- Select **one other topic activity** to complete. You can choose which activities you find the most interesting or be creative and generate your own!

Hand- in date: **Monday 5th February**

Homework celebration: **Thursday 8th February**

However, if your child creates any models or creative work during the half term, we can display it in class.

Expressive Art & Design

(Topic activity)

- Can you make something space related i.e.
 - Space rocks from salt dough.
 - Papier-mâché planet.
 - Star shaped cookies.
