

Summer 1 Home Learning Menu - Class 6

Maths

You must complete this activity.

- Practise the multiplication and division facts for your times tables so you can recall the answers quickly.

English - Writing

You must complete this activity.

- Practise your spellings every week for your spelling test each Friday.

English - Reading

You must complete this activity.

- Read your school book every day and fill in your Reading Diary.

R.E

You must complete this activity.

Research the life of Mary Seacole and display it in a creative way! You may want to create a non - chronological report, a cartoon, a spider diagram or a fact sheet.

Each Maths, English and RE activity **MUST** be completed, we have tried to reduce this so that it is easier for families to manage.

All other subjects are **OPTIONAL**.
You may also choose to do another piece of work related to an area of learning

French

Create a portrait of your family.

Add labels to show your parents, brothers, sisters or any other members of your family.

You could add the months to show when they have a birthday!

Design Technology

Design and create your own sandwich. You could try using a type of bread and fillings from different parts of the world.

Science

Investigate making shadows of yourself. Find out how your shadow is different at different times of day. What shapes can you create with your shadow?

Can you make shadows from different materials such as paper, a clear plastic bottle. How are they different?

Geography

Have a go at researching a country in Europe and create a holiday leaflet for that destination to persuade me to go on holiday here!

Think about using some persuasive language.

Homework Due - Monday 18th May

Homework Share - Friday 22nd May
